

# Guillermo Perdomo

January 25, 2022

Guillermo was a Power Plant Technician at H-3  
1965-66

There is no custom for writing an obituary like you may find in the US, when someone dies. Guillermo lived in the Faroe Islands up to his death. He moved back in 2007 after retirement to stay close to his son, Glenn and daughter, Anja. He loved his books (was extremely well read) and he had a great passion for stamps.

He was only sick for a period of 3 months.

He will be missed.

Sincerely  
Anja
