

It is my sad duty to report the death of my father, Col. Frank E. Herrelko, USAF (Ret). He died in his sleep on Sunday, 21 Oct 18, at age 105.

My father served in Iceland from 1943-45, and was the commander of the 556th Signal Aircraft Warning Battalion during the war. I remember meeting his buddy, Mr. Lambert W. Stammerjohn, author of that great history, on several occasions. Your website does a fine job of capturing what those years were like.

His obituary is at:

Please make whatever announcement or web page postings your organization's traditions dictate, as your time may permit.

Thank you for all you do to celebrate the great heritage of Iceland Radar community and their historic mission.

Sincerely,

David A. Herrelko
